Dear Chairman Kevin Martin

I am a deaf senior citizen, I have retired from the US Postal Service after 32 years. As a tax payer for many years I want my voice to be heard. I ask that the funding for the VRS service not be cut but to even be increase to keep with our needs for this wonderful service. As in the hearing population, the deaf population is growing older. We need this service more than ever for many reason and most important for our medical needs or calls that may even save our lives. This service has been so helpful to us to live healthier and productive lives. I believe that with this service we may even be able to remain in our own homes for many years to come. It helps us connect. It is a very helpless feeling if you have no way to make a call if needed. Again I ask that the funds not be cut and your thoughtfulness be to helping the deaf community.

Thanks you so very much,

Sincerely,
